NOTICE TO INDIAN OWNED/OPERATED BUSINESSES AND TRIBAL MEMBERS:

The following subcontracts were awarded for work to be performed on new 500 kV transmission line construction projects for the Bonneville Power Administration. Energy Delivery Services (EDS) is currently constructing the Grand Coulee-Bell, the Schultz-Echo Lake and the Hanford Ostrander transmission lines. We determined the successful bidders through a competitive bid process utilizing pre-qualified contractors. EDS reviewed and considered multiple criteria including price, contractor experience and past performance record, personnel and financial capabilities and minority status as part of our selection criteria. We are specifically committed to including Indian Owned businesses in this process. EDS, through the sharing of this information, encourages you to contact these companies for possible second tier business where appropriate.

Grand Coulee – Bell Project

Company	Phone #	Scope of Work
Burton Construction	509-468-4932	Dust Abatement/water
Northstar Enterprises	509-992-3332	Traffic Control
